

What report?

are they?

## Childhood memory

As time goes by, we will lost many of our memories. Memories of our childhood, where is it? As the report said that now I know, if I can remember things when it happened, that's unusual. Few adults can do it. There's even a special term for this phenomenon -- " Childhood amnesia ". But I still remember some things from I was a child. Although, the memories from the child is hurt someone, it's bad for them, for me it's a good memories.

Explain a memory that you have.

So your essay is about your good memories? That's too general. What is your opinion and your how and why?

You intro has no hook and no thesis, so it's not a very strong introduction at all. It is unclear what your topic is. Writing about good childhood memories is not enough for a solid essay. The idea of childhood amnesia is fascinating, but it will require research. Choose a topic, and opinion, then tell me how or why. Start by writing a stronger thesis, then a strong hook. You need to rewrite this introduction as a whole. Come by for help during lunch or after school.
