RESULTS

1st Question – The door

The door represents your attitude to new experiences. If you imagined a simple, everyday door, you probably are not afraid of any new challenge and will test your luck in new things and situations without a second thought.

If you have chosen the hidden door, you probably do not know what you need to do in the future and your life in it, and it looks blurry and undefined.

Of course, if you have chosen a big, scary door, then you probably are afraid of the unknown and find it difficult to get out of your comfort zone and try new experiences.

2nd Question – Inside the castle

The space inside the castle is the idea that you believe others to have of you. If for example you saw a library, you probably think that you are the person who supports others and helps them find answers to their problems.

The large fireplace gives a feeling of warmth and passion that you think you cause in people.

A fancy ballroom suggests that you feel that you can dazzle people around you and that you have a lot to give.

If you ended up in a long corridor with closed doors, you feel that you are difficult to understand and others will have to try much to 'penetrate' more within you.

3rd Question – The staircase

The stairway shows the image that you have of life. The sharp and massive staircase shows a person who sees life as suffering, with many difficulties. Unlike the beautiful spiral staircase which shows how romantic a person is.

4th Question – The window

Window is the way you feel right now. A small window means that you feel depressed and trapped in your life. It may feel like there's no way out of what you are experiencing in this period.

A normal window shows a person with realistic demands and expectations of life at this stage. You realize that there are limitations, but the future is here and it looks clear for you.

Conversely, if the window is gigantic, you probably feel invincible, free and able to achieve what you want.

Question 5 – The view from the window

The view from the window is the overview of your whole life! A stormy sea shows a hectic and erratic life, while a snowy forest is associated with a person who lived isolated and detached from the crowds. The green valley shows that your life is calm and steady, without much stress and anxiety. Finally, the vibrant city is related to someone who generally lives full life socializing with lots of people.

Question 6 – The courtyard of the castle

The image of the courtyard is the image that you have in mind of your future! So if your garden is neat and shiny, then you feel that your future will be heavenly. On the other, a picture of a
