	7.			

Want a good grade? Make it easy for the teacher to find your assignments:

- If an assignment is on the backside of another page, use the copy machine to make a copy, then place the item in the right place.
- All writing assignments are at least half a page unless otherwise noted
- Label everything exactly as it appears on this sheet. Add a date.
- Number each assignment on the TOP LEFT according to the sheet.
- To keep everything organized in the future, add a new page to the FRONT of the section you are using and avoid writing on the back of pages unless it's the same assignment.
