

A Brand New Colony

You have just landed in the New World from England, and you have been appointed the task of creating an organized colony. Work with a partner to create a new colony. This must include:

- The name of your colony
- An original flag
- Type of government you will have and a description of that government – one paragraph
- At least 8 Laws of your colony and the consequences for breaking these laws.
- The duties and responsibilities of the people – one paragraph

These are the facts:

- There are 30 other people- men, women, and children
- You do not know any of these people personally.
- The climate is like Qingdao, and it is June
- The local vegetation has vegetables, fruit, nuts, and seeds.
- There are some wild animals.
- The only clothes you have are the clothes on your back.
- You do not have building materials, but you do have some basic tools

Remember: What do you have to have in order to survive? Who is in charge? Who works and who doesn't? What about education?
